

Vacancy:

MATERIALS TECHNICIAN APPRENTICE (Level 3)

Location:

Project Wide

What is HS2?

HS2 is a brand new, low carbon high-speed railway critical in supporting the UK's economic growth and tackling climate change. It will provide much-needed rail capacity and is integral to increased economic growth – helping to improve connectivity, create jobs and support the UK economy. Construction of HS2 is underway and the project is already supporting thousands of jobs and businesses around the country.

Role Purpose:

As a Materials Technician Apprentice your main role will be to support the management and delivery of materials engineering services.

You will ensure that all work is undertaken safely and in accordance with required processes.

Accountabilities

There will be a wide range of duties including:

- Undertaking testing on materials including aggregates, concrete and asphalt in accordance with required standards.
- Complying with the high standards of works required by the Quality Management Systems within important deadlines.
- Maintaining equipment to an excellent standard as required by the Laboratory Manager.
- Proactively communicate with senior staff to ensure effective communication and flow of information.
- Attending training courses and assessments as required.

Skills/Experience

The following experience is required:

- Strong IT skills in Microsoft Office, particularly in Word, Excel, PowerPoint, Microsoft Forms and SharePoint.
- Strong organisational skills.
- Adaptable to work in a fast pace environment.
- Full UK Driving Licence is required.

Apprenticeship Overview

- Apprenticeship Standard: Level 4 Laboratory Technician
- Apprenticeship Length: 24 months
