

BBV Skills Academy General Operative Programme

Location: Project Wide

We are offering a FREE training programme where candidates will receive specialist training to equip them with the skills, knowledge and qualifications that will lead to employment within the construction industry. Successful candidates will also have a guaranteed interview and access to a paid work trial.

Formal Interviews at the end of the work trial period may result in permanent hire dependent on outcome.

Use the QR code below to register interest.

Eligibility:

Candidates need to be aged 19+ in the academic year, unemployed, have lived in the UK for the last 3 years and in receipt of either: Universal Credit, Job Seeker's Allowance or Employment & Support Allowance.

Courses are available at:

South & City College, Bordesley Green Campus
City of Wolverhampton College, Wellington Road Campus,
RMF, Solihull,
QTT, Lichfield

Civil Engineer Apprentice (Level 4&6)

Location: Project Wide

As a Civil Engineer Apprentice you will be assisting site engineers in support construction activities. You will work alongside experience site engineers, gaining hands-on experience in the heart of the HS2 construction project.

Apprenticeship Standard: Civil Engineering Senior Technician (Level 4) / Civil Engineer (Level 6)

GIS Trainee

Location: Birmingham B24

A Geographic Information System (GIS) Trainee will support the GIS Technicians and Co-ordinators with the management of systems and support the project with GIS activities. Your accountabilities will include creating GIS outputs, working closely with CAD Co-ordinators to convert data to GIS format and engaging with users to help with queries.

Awareness of BIM & CAD packages are essential.

BIM Apprentice (Level 4)

Location: Birmingham B24

As a BIM (Building Information Modelling) Apprentice, you will support the digital design and construction process by assisting in the creation, coordination, and management of 3D models. You will gain hands-on experience in using industry standard software to develop detailed building models.

Apprenticeship Standard: Construction Design and Build Technician (Level 4)

I&M Support Trainee

Location: Birmingham B24

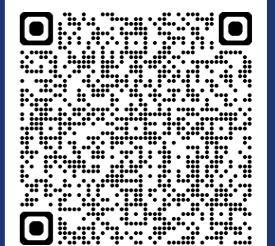

As an Information Management Support (I&M) Trainee you will learn how to support software systems, understand the Information Management process within software and improve communications. Accountabilities will include onboarding users across the project onto CDE systems. You will be monitoring these systems to ensure optimum service availability, developing and maintaining CDE databases and contributing to the implementation of upgrades and migration to future CDE services.

Quantity Surveyor Apprentice (Level 4&6)

Location: Bromford B46

As a Quantity Surveyor Apprentice your role is to ensure everything that is required is accounted for and costs are controlled. You'll manage project costs, contracts and financial Planning. You'll learn about cost estimation, contract management and financial analysis.

Apprenticeship Standard: Construction Quantity Surveying technician (Level 4) / Construction Quantity surveyor (Level 6)

Instrumentation & Monitoring Assistant

Location: Water Orton B46

Your role will be to support the Instrumentation & Monitoring Manager in co-ordinating and managing monitoring packages. You will do this by ensuring effective communication with subcontractors, the delivery team and other stakeholders while maintaining accurate documentation.

A Bachelor's degree, or equivalent, in an engineering/scientific discipline is essential.

Environmental Apprentice (Level 6)

Location: Coventry CV7

As an Environmental Apprentice you will gain hands-on experience in environmental management. You will be supporting the environmental and ecology team, assisting with maintaining data, contributing to the BREEAM HS2 Infrastructure pilot scheme and supporting initiatives to reduce carbon emissions and conserve water.

Apprenticeship Standard: Environmental Practitioner (Level 6)

Landscape Apprentice (Level 3)

Location: Birmingham B24

As a Landscape Apprentice you will support the Landscape team in delivering high quality landscape implementation from design assurance through to construction. Your role will involve assisting in updating the landscape delivery programme and helping to order planting stock in alignment with the construction schedule.

Apprenticeship Standard: Horticulture or Landscaping Supervisor (Level 3)
