

Vacancy:

SURVEYOR APPRENTICE (Level 3)

Location:

Bromford B46

What is HS2?

HS2 is a brand new, low carbon high-speed railway critical in supporting the UK's economic growth and tackling climate change. It will provide much-needed rail capacity and is integral to increased economic growth – helping to improve connectivity, create jobs and support the UK economy. Construction of HS2 is underway and the project is already supporting thousands of jobs and businesses around the country.

Role Purpose:

As a Surveyor Apprentice you will assist the Engineering Surveying Team in supporting the survey requirements throughout the construction process.

Accountabilities

There will be a wide range of duties including:

- Working as part of the Surveying Team in various engineering survey activities, tasks will vary but will include engineering control, topographic surveys, engineering surveying and setting out.
- Supporting Tunnel Boring Machine (TBM) navigation and tunnel networks.
- Collecting data to inform onsite records such as diaries, survey and accurate daily site notes.
- Supporting Health & Safety and Sustainability initiatives within the surveying department.

Skills/Experience

The following skills and experience are required:

- Passionate to learn and develop within the Surveying Team.
- Ability to communicate effectively.
- Ability to form effective working relationships with the wider project team.
- Proficient in Microsoft 365, including Excel.
- Good spatial awareness and the ability to visualise objects and layouts in 3D.

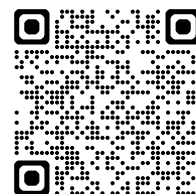

Desirable Skills/Experience

- Some understanding of design, construction, and surveying.
- Work experience in a construction environment.
- Full UK Driving Licence is required.

Apprenticeship Overview

- Apprenticeship Standard: Geospatial survey technician (Level 3).
- Apprenticeship Length: 24 Months.
